Safe Harbor
Offering hope. Ending the silence.

The Evergreens Benefit Gala is Safe Harbor Crisis Center's signature fundraising event and one of Davis County's premier philanthropic evenings. This inspiring celebration brings together community leaders, businesses, philanthropists, and advocates who share a commitment to creating safety, healing, and hope for survivors of domestic violence, sexual assault, and human trafficking.

Each year, more than 500 community members gather to celebrate resilience, hear powerful stories of hope, and invest in the critical programs that provide emergency shelter, advocacy, therapy, forensic nursing, housing, prevention education, and ongoing support for survivors and their families.

The Evergreens Benefit Gala offers sponsors and community partners a unique opportunity to demonstrate their commitment to strengthening our community while helping ensure that every survivor who turns to Safe Harbor has access to the resources, compassionate care, and support they need to rebuild their lives free from violence.

About Safe Harbor

For more than 30 years, Safe Harbor Crisis Center has been a place of safety, healing, and hope for survivors of domestic violence, sexual assault, and human trafficking throughout Davis County and surrounding communities. Each year, we provide life-changing services to more than 2,000 survivors and their family members through emergency shelter, 24/7 crisis response, forensic nursing, advocacy, therapy, housing assistance, prevention education, and supportive services.

Every survivor's journey is unique, but no one should have to face it alone. From the moment someone reaches out for help, our dedicated team is there to provide compassionate, trauma-informed care that empowers survivors to regain safety, stability, and independence.

This work is only possible because of the extraordinary support of our community. Together with our donors, volunteers, corporate partners, healthcare providers, law enforcement agencies, schools, and community organizations, we are building a future where every survivor has access to the resources they need to heal and thrive.
